US#	Customer (*A guest of a restaurant*)	MoSCoW
US01	As a customer I want to be able to place a reservation, so I can have dinner at the restaurant.	M
US02	As a customer I want to be able to pass along dietary requirements, so that the cook can take these into account.	M
US03	As a customer I want to be able to specify how many people I am making a reservation for, so that restaurant is prepared.	M
US04	As a customer I want to be able to receive a confirmation message when the reservation is successful, so that I know everything went successfully.	M
US05	As a customer I want to be able to see for what dates/timeframes I can still make a reservation, so I can make a reservation more easily.	M
US06	As a customer I want to be able to cancel my reservation, so that the employees know I am not able to come.	M
US07	As a customer I want to be able to provide the names of my fellow guests, so that the employees can seat us.	S
US08	As a customer I want to be able to add remarks to my reservation, so I can inform the employees of something	C
US09	As a customer I want to be able to enter a voucher online, so that I can redeem my gift dinner.	C
US10	As a customer I want to be able to reschedule a reservation, so that I do not have to cancel and make a new reservation separately.	W

US#	System Manager (*Someone from within the restaurant who has access to the reservation system*)	MoSCoW
US11	As a manager I want to be able to create an event, so that the guests can make a specific reservation for that event.	S
US12	As a manager I want to be able to set what dates & times are available for reservation	M
